Portfolios

Nice Portal, Unity Project — Apr. 2025 - Current

Solo developed a First person Portal prototype. Using Unity engine with C# and Shader Graph, engineered gameplay code, shaders for the portal effects, and the portal teleportation system. Over 25 views, 7 plays, and 4 private collections added on itch.io.

3D Movement Prototype, Unity Project — Mar. 2025 - Current

Solo developed a Third person mario style platformer prototype. Using Unity engine with C# and Shader Graph, engineered gameplay code, shaders, and the system for the player movement animations with over 10 animations made.

Pinocchio, Gamejam — Jan. 2024

Gameplay Programmer and audio designer of a 2D platformer puzzle game for the 72 hours game jam with a team of 2 people. Using Unity engine with C# and Visual Studio, engineered gameplay code, tools, designed UI system, music and 2 levels. Voted best overall game in the game jam, over 102 views, 32 plays on itch.io.

CS488 , Graphics Projects— Dec. 2023 - Mar. 2024

Solo developed computer graphics projects based on what I've learned in CS488(Intro to Computer Graphics) course. Using OpenGL, GLFW, ImGui, C++, Lua, and GLSL, engineered modeling, rendering, UI code, and shaders for OpenGL graphics applications, and multithreaded raytraced Animation. The ray trace project produces realistic shadows and reflections, and has particle and depth of field effects.
